Class Specifications

Jumper Divisions

Ground Pole Jumper Division - May only be cross-entered with the Crossrail Division.

Fences: Poles on the Ground - Entry Fee \$25/class

This division was created to give BEGINNER riders new to the jumper division (both young and older!) an opportunity to practice simple jumper courses, over poles on the ground. Classes will be judged according to Optimum Time. This means that the course must be ridden at the appropriate speed for

*** Drags will be announced as needed by management. The 2-minute rule applies at the in-gate. Please be on, warmed up and ready for your class! For classes that have a large number of entries, management reserves the right to create order-of-go groups within the classes/division. These groups are intended to help create a less crowded warmup arena and more efficient show. They will be created prior to the show and emailed out, as well as printed in office and available with the paddock master! A rider that is in Group A for example, will ride the first course in the division, along with all the other riders in Group A. After everyone has finished their 1st course, that same rider will go back in to ride their second class of the division, along with all the other riders in Group A. When all in Group A has all gone, Group B will start, and so on. We ask that only riders in Group A are in the warmup arena as their classes are beginning. Once Group A has warmed up, Group B can begin to warm up for their classes/division! This approach helps eliminate congestion in the warmup arena! Please be respectful of others warm-up time! These Groups are not judged separately, but for organizational purposes only!
